

Carrd Referral Code 2026: "MAKER" Gives 40% Off Carrd Pro September 2026

If you're searching for a Carrd referral code, Carrd promo code, or Carrd coupon code in 2026, the code to check first is MAKER.

Carrd Referral Code: MAKER

Advertised discount: 40% OFF

Offer: Carrd Pro discount Code: MAKER Year: 2026

Several current coupon and referral-code pages report MAKER as a 40% Carrd discount. A current coupon tracker also lists MAKER among codes reported as providing 40% off.

Important: Carrd referral and discount codes can change, and community reports show that a code that works for one account may not work for another. Always confirm the discounted total on Carrd's checkout page before completing payment.

Best Carrd Referral Code 2026

Code Discount Status

MAKER 40% OFF Check at checkout Other referral codes Varies May change

If your goal is simply to find the highest currently reported Carrd discount, MAKER is worth trying first because current coupon tracking results list it with a 40% discount.

How to Use Carrd Referral Code MAKER

Using the code is straightforward:

Step 1: Open Carrd

Go to the official [Carrd website](#) and log in or create your account.

Step 2: Choose Carrd Pro

Select the Pro plan you want to purchase or upgrade to.

Carrd offers several Pro tiers, with pricing starting at \$9/year according to Carrd's current public information.

Step 3: Enter the referral or discount code

At the relevant checkout stage, enter:

MAKER

Step 4: Apply the code

Click the applicable Apply button and check whether the total price changes.

Step 5: Verify the final price

This is the most important step.

Do not complete the purchase unless the expected discount is actually reflected in the checkout total.

That protects you from expired, account-specific, or incorrectly advertised codes.

How Much Can You Save With MAKER?

If the 40% discount is accepted at checkout, the approximate calculation is:

Original price × 0.60 = discounted price

For example:

Carrd Pro price 40% discount Approx. price after discount

\$9/year \$3.60 \$5.40/year \$19/year \$7.60 \$11.40/year \$49/year \$19.60 \$29.40/year

These calculations assume a full 40% discount and are provided as examples; your actual checkout price should be treated as authoritative.

Carrd's public materials currently list Pro tiers at \$9, \$19 and \$49 per year.

Carrd Pro Pricing 2026

Before using a coupon, it's useful to understand what you're actually buying.

Carrd is primarily designed for creating responsive one-page websites, landing pages, portfolios, personal pages and similar lightweight websites.

The free plan can be enough for basic projects, while Pro adds features such as custom domains, forms, analytics and additional functionality depending on the tier.

Pro Lite

\$9/year before any applicable discount

A good option if you mainly need additional design and publishing features.

Pro Standard

\$19/year

A stronger option for people who need features such as custom domains, forms, analytics and custom code.

Pro Plus

\$49/year

Designed for users who need Carrd's more advanced capabilities, including additional sites and advanced features.

Which Carrd Plan Should You Choose?

Choose Pro Lite if:

You need a simple personal website

You want to remove Carrd branding

You need more design options

You don't require a custom domain

Choose Pro Standard if:

You are building a business website

You need a custom domain

You want contact forms

You need analytics

You need custom code

Choose Pro Plus if:

You manage multiple websites

You need advanced forms

You need password protection

You want more advanced customization

For most small businesses, creators and landing-page projects, Pro Standard is the tier worth comparing first because it adds several features that aren't available on the lower tier.

Carrd Referral Code vs Carrd Coupon Code

You may see several different search terms when looking for the same type of offer:

Carrd referral code

Carrd promo code

Carrd coupon code

Carrd discount code

Carrd Pro coupon code

Carrd Pro promo code

Carrd Pro discount code

Carrd referral discount

Carrd 40% off

Carrd discount 2026

The terminology can be confusing.

Carrd's referral system allows users to share referral codes/links, while some referral codes may include a discount for the person making the purchase. Carrd community discussions specifically distinguish ordinary referral codes from discount codes, noting that discount codes can replace the original referral code rather than stack with it.

Therefore, don't assume that every Carrd referral code automatically provides 40% off.

Is MAKER a Legit Carrd Code?

There are multiple current third-party pages reporting MAKER + 40% OFF, including pages crawled recently.

However, I would not describe the code as permanently guaranteed or officially endorsed by Carrd unless Carrd itself confirms that specific code.

That's an important distinction.

The safest approach is:

Enter MAKER → click Apply → verify the price → pay only if the discount appears.

This is also important because users have reported situations where advertised Carrd codes did not apply to their accounts.

Does Carrd Have a Free Plan?

Yes.

Carrd provides a free option that can be used to create and publish basic websites. Current Carrd-related documentation and public materials describe the free plan as supporting up to three published sites, with Pro available when you need additional features.

So you don't necessarily need a coupon if you only want to experiment with Carrd.

The discount becomes more valuable when you're ready to upgrade to Pro.

Carrd Promo Code 2026: What If MAKER Doesn't Work?

If MAKER doesn't produce a discount at checkout, don't immediately pay.

First:

1. Make sure the code is entered exactly as MAKER.
2. Remove extra spaces.
3. Confirm you're purchasing an eligible Pro product.
4. Check whether Carrd displays a discount before payment.
5. If no discount appears, don't assume that the advertised 40% offer applies to your account.
6. Check Carrd's current referral/offer information or contact Carrd support.

This is particularly important because community reports show that Carrd codes can change over time and different users have reported different results.

MAKER vs Other Carrd Referral Codes

You will find many codes online claiming to provide 30%, 40%, or even larger Carrd discounts.

The problem is that a larger number in an article does not necessarily mean a larger real discount at checkout.

For example, current coupon tracking results list numerous Carrd codes with different reported discount percentages, while MAKER is listed at 40%.

That's why the best strategy isn't to collect dozens of random codes.

Instead:

Try MAKER first and verify the final Carrd checkout price.

If it doesn't apply, look for a current alternative rather than relying on an old article.

Frequently Asked Questions

What is the Carrd referral code for 2026?

MAKER is currently reported by several third-party sources as a Carrd referral/promo code associated with a 40% discount.

What is the Carrd coupon code for 40% off?

The code currently reported for a 40% Carrd discount is:

MAKER

Check the discount at checkout before paying.

Does MAKER work on Carrd Pro?

Current third-party sources report that MAKER can provide a 40% discount on Carrd Pro, but eligibility can change. Verify the price displayed by Carrd before completing the purchase.

How much is Carrd Pro after 40% off?

Assuming a full 40% discount:

\$9 → \$5.40

\$19 → \$11.40

\$49 → \$29.40

These are mathematical examples based on the publicly listed annual prices, not a guarantee that every account will receive the offer.

Can I use more than one Carrd referral code?

Generally, you should not expect referral/discount codes to stack. Carrd community documentation explains that a discount code can replace the original referral code rather than being combined with it.

Is MAKER officially from Carrd?

There are current third-party reports of the code, but that is different from Carrd officially publishing an endorsement of MAKER. For that reason, verify the discount directly on Carrd's checkout page.

What if the code doesn't work?

If the price doesn't change after applying MAKER, don't proceed assuming you'll receive the discount. Check the eligibility and current offer, or contact Carrd support.

Final Verdict: Is MAKER Worth Trying?

If you're searching for a Carrd referral code 2026, Carrd promo code, Carrd coupon code, or Carrd 40% off, MAKER is worth checking first because multiple current sources report it as a 40% offer.

The key is to judge the offer by the actual checkout price, not by what a coupon website claims.

Carrd Referral Code 2026

CODE: MAKER

Reported discount: 40% OFF

Best practice: Apply the code and verify the final price before payment.
